Posted Tue at 3:31pm

The state's main grain handler CBH is investing tens of millions of dollars to construct an export oat processing facility at the Metro Grain Centre in the Perth suburb of Forrestfield

The Forrestfield oat processing plant aims to process 60, 000 tonnes of WA oats, that's double Blue Lake Milling's current national output

Recent changes to the global grain markets have convinced more farmers to seek assistance from pool managers to sell their grain

Lands Minister Terry Redman refused to confirm whether or not the land administration amendment bill was submitted to Cabinet yesterday, the last sitting of the cabinet before the winter break

Construction has begun on what is thought to be Australia's first piggery to run electricity from an on-site waste digester facility

Members of the South East Premium Wheat Growers Association got a close up look at some robotic gear during a study tour in Queensland. They saw swarm robots and autonomous steering technology retro fitted into regular gear, called a pro-botic

The kidnapping of seven workers of a Perth based mining company in Nigeria last week highlights the dangers of operating there

As Australian negotiators try to thrash out a Free Trade Agreement with India, a horticultural exporter is urging them on
